

## Sectional diagram

## Co-act EGP-C

- i** The sectional diagram shows the functionality as well as various product features and options. The product features and directly applicable information contained in the articles can be found in the technical data, drawings, etc.

The Co-act EGP-C gripper is electrically driven and has an integrated current limitation and collision protective cover. The current limitation ensures that the gripping force does not exceed a defined value. The collision protective cover serves for minimizing the risk of injury during the use in collaborative operations.

- 1** Collision protection
- 2** Gripper for small components EGP
- 3** **Flange**  
with integrated electronics and cabling
- 4** **LED strip light**  
for status display
- 5** **Integrated sensor system**  
to monitor the jaw position

- 6 **Service flap sensor system**  
for adjusting the sensor system
- 7 **Service flap gripping force**  
for adjusting the gripping force
